

PROJECTS

Location: Kent

Business Type: Armed Services Benevolent Charity

Project: Internet Security

Our Client, a nationally recognised charity supporting members of the Armed Forces, their families, and other vulnerable and disadvantaged people, needed specialist assistance configuring and maintaining their Email Gateway and Security Firewall.

Working with their established team of Microsoft accredited IT support staff we were able to contribute our breadth of experience to reinforce their perimeter security and assist with the challenges they faced integrating multiple messaging systems to ensure a consistent and reliable flow of email until their systems were outsourced.

Revolutionary IT Evolutionary Service

We've supported businesses in Kent & London for over 20 years

Network Computing At Your Service

Network Computing have been providing IT support to small and medium-sized businesses throughout Kent and London since 1993. We are proud of our professional, friendly team at Network Computing. Our Technicians are reassuringly approachable, competent and committed to resolving your issue. We pride ourselves on providing a first class level of service to our customers and in turn have a high level of customer loyalty and satisfaction.

Support Schemes

Network Computing can support your business whether you need additional expertise to work alongside an internal IT team or we can cradle your whole IT system by incorporating full network management assistance. We support small to medium sized businesses and our competitively priced schemes have been designed accordingly for structure and finance.

Structured IT Systems

Your IT infrastructure is in good hands with our Networking, Data Back-up and Recovery, Effective Security and Business Mobility Tools. We want your business cogs to keep turning. Simple or complex, Network Computing will ensure the most effective network requirements are in place.

Web & Cloud

Network Computing have implemented this system for years and our experience will give you confidence and peace of mind. With our own state-of-the-art Data Centre and Disaster Recovery suite, we can provide a range of cloud computing and hosted services.
